Clinical Negligence

Febienne Green is a clinical negligence specialist counsel, having worked as a clinical negligence paralegal within the 'birth injury' team at a specialist law firm; assisting on birth injury cases, including attending JSMs and conferences of multidisciplinary experts. This has given her valuable insight into clinical negligence disputes.

Febienne completed medical record reviews, research and drafted witness statements, a quantum advice and schedule of loss. She also did her dissertation in her LLM in 2021 on disability discrimination in medical law.

Febienne intends to develop her clinical negligence expertise over the coming years and is inspired by a personal family tragedy, after witnessing the impact of a clinical negligence dispute involving a close family member. Due to a clinician's misdiagnosis, they suffered a brain injury that resulted in severe disabilities. She witnessed the positive impact of the representation and powerful advocacy on their behalf and its outcome and in her family, feeling heard during the process. She intends to provide the same representation to her clients.
